

KNOW THE FUTURE. THEN CHANGE IT.

Pharmacy quality measures. Total cost of care. Member experience.
RxAnte's tech-enabled and value-based pharmacy services will help you plan for and reach your goals.

The Future of Patient Adherence® --

Delivering the right solution for the right patient at the right time.

Simulation and Forecasting

Know where you're headed: our team will calculate your current and future performance trajectory on measures of cost of care and pharmacy quality, and identify opportunities to improve.

At-Risk Member Identification

Understand your at-risk member population: our solution will help you identify members at risk for non-adherence or future unplanned care events, flagging them for outreach and counseling.

Targeted Outreach for Optimal Outcomes

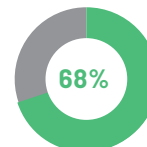

Implement the right interventions: use the blend of interventions that best addresses your plan's goals; this can include our value-based pharmacy service to support your most medically complex and vulnerable members.

RXANTE OFFERS THE COMPLETE SOLUTION:

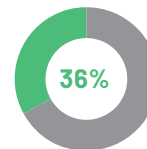

Population-level performance forecasting to inform resource deployment, accurate at-risk member identification, and a portfolio of interventions that includes Mosaic, RxAnte's value-based pharmacy service designed for your most medically complex and vulnerable Medicare Advantage members.

Our subscription analytics powers pharmacy quality programs and improves members' medication use for the highest-performing health plans in the country. Let our expert team will help you build the program that achieves your goals—with guaranteed performance.

PROPER MEDICATION USE IS A CRITICAL COMPONENT IN YOUR PLAN'S PHARMACY QUALITY EFFORTS.
